

Rajeev Tripathi

Dallas, TX | (513)-266-3982 | rajeev.tripathi0207@gmail.com | [LinkedIn](#) | [Tableau](#) | [Portfolio](#)

PROFILE

- Insight-driven Data Analyst with 3+ years of experience applying statistical modeling and visualization techniques to uncover business trends, optimize performance, and guide strategic decisions across different domains.
- Proficient in Python, SQL, and Power BI** for data analysis and insight generation, with experience using **Snowflake and Azure** to build scalable analytical workflows that support data-driven decisions and improve business performance.

EXPERIENCE

Data Analyst | Lightship Foundation, Cincinnati, OH (Remote)

May 2025 – Present

- Designed analytical datasets in **Snowflake** by integrating data from multiple sources using **SQL** to support KPI reporting.
- Created data validation scripts in **SQL** and **Python** to ensure consistency, completeness, and accuracy across data layers.
- Built **Power BI** dashboards to visualize trends, automate business reporting, and provide insights for operational optimization.
- Created technical documentation in **Confluence**, including data dictionary, semantic models, reporting workflows, SOPs, and dashboard user guides, to support transparency, usability, and smooth handoffs.

Data Analyst | University of Cincinnati, Cincinnati, OH

August 2024 – May 2025

- Performed **EDA** to detect error occurrence patterns and device feature correlations influencing ticket volume.
- Collected and cleansed large-scale customer and ticket datasets using **PySpark** to prepare for analysis.
- Built Power BI dashboards** to visualize real-time KPIs, delivering actionable insights to senior management that contributed to a **19% reduction in support tickets**.

Business Intelligence Developer | COGNIZANT, Delhi, India

June 2021 – July 2024

Client: Global Security Operations Center

- Designed and deployed **ETL data pipelines in Azure Data Factory** to integrate and transform data from on-premises and external sources, improving overall data load performance by **34%**.
- Automated ingestion workflows using ADF pipelines, enabling incremental loads and reducing manual intervention.
- Implemented robust data quality checks and logging mechanisms in ADF to monitor pipeline health and performance.
- Collaborated with stakeholders to define key metrics, ensuring analytics outputs aligned with business requirements.
- Designed Power BI dashboards** to monitor attack and phishing incidents across 170 member firms.
- Implemented **Row-Level Security (RLS) in Power BI dashboards** to restrict data visibility based on region and country.

Client: SBI (General Electric)

- Created Power BI semantic models for streamlined reporting, enabling quicker insights into operational KPIs.
- Optimized SQL queries, stored procedures and semantic models, reducing dashboard refresh time by **40%**.

SKILLS AND CERTIFICATIONS

Skills: Power BI (DAX, Power Query), Excel (Pivot Table, INDEXMATCH, VLOOKUP/XLOOKUP), Advanced SQL (CTEs, Window Functions, Query Optimization), Python (Scikit-learn, Numpy, Pandas), PySpark, R, Cloud Services (Snowflake, Azure)

Analytics & Modeling: Time series Analysis, Forecasting, Clustering, A/B Testing, Data Modeling, Machine Learning

Certifications: Power BI Data Analyst ([Microsoft](#)), Data Analytics ([Google](#)), Azure Data Fundamentals ([Microsoft](#))

PROJECTS

Multiple Disease Prediction System | Python, Streamlit, Scikit-learn, NumPy, Pandas, Pickle

[\(Link\)](#)

- Developed predictive machine learning models achieving over 88% accuracy and deployed a Streamlit-based application with CI/CD pipelines to automate model updates and releases.

AI-Powered Multi-Agent Research Assistant | Python, Langflow, AstraDB, Git, Streamlit, RAG

[\(Link\)](#)

- Built a multi-agent LLM application using RAG to ingest healthcare data and answers real-time research queries.
- Implemented an “Ask AI” functionality with agent routing and real-time data retrieval to improve response accuracy.

EDUCATION

University of Cincinnati, Carl H. Lindner College of Business | (GPA: 3.96/4)

Cincinnati, Ohio

Master of Science, Business Analytics and Data Science

August 2024 – December 2025

- Teaching Assistant:** Data Visualization and Statistics
- Scholarships:** Lindner College of Business International Outreach (2024), UC Global Scholarship (2024)

KIET Group of Institutions | (GPA: 3.6/4)

Ghaziabad, India

Bachelor of Science, Computer Engineering

August 2017 – July 2021
